Custom PICTURE FRAMING

Mitre-Mite® VN144

ITW AMP is introducing the latest design to its popular Mitre-Mite® underpinning machines, the VN144. This machine has special design features such as;

- **New 8" nail stroke** allows assembling of the latest larger designed mouldings.
- **New "Interchangeable size magazine"** allows operator to quickly change from V-Nails® sizes without the added cost of the plastic nail cartridges.
- **User-friendly control arm** for left or right operation allows the framer to accurately position the nail head for driving or stacking V-Nails® anywhere along the frame joint.
- **Choice of front or rear operation**
- **"Positive-Placement"** clamping system
- **Environmentally conscious V-Nails®** (no cartridges)
