

A3-P *Special*

Pneumatic Assembly Machine

The A3-P "Special" is the full equipped version of the benchtop frame assembly machine, built to withstand the rigors of time.

Designed for small to medium size frame assembly. It can join all types of moulding with precision using our **special steel A+ wedges**, which are manufactured in several different sizes (3mm-15mm). It is equipped with a horizontal clamp to hold the corners tightly together while assembling the frames.

This machine is equipped with a very strong nail driver providing trouble free operation for many years. This model is characterized by the movement of the fence using linear ball bearings and the automatic fence clamp (AFC) placed below the working surface.

Data Sheet

Frames thickness (min-max)	6-100 mm / 1/4" - 4 1/4"
Frames width (min-max)	6-150 mm / 1/4" - 6"
Wedges magazine capacity	n. 220
Wedges size	7, 10, 15 mm.
Wedges size on request	3, 5, 12 mm.
Pneumatic feed	BAR 3-6 / PSI 40-80
Air consumption	3,5 NI at 5 BAR 0.12 cP at 73 PSI
Weight approx.	35 kg / 77 lbs
Height of work bench	130 mm / 5"
Overall dimensions	320x480x380mm 13" x 19" x 15"
